PROFILE

Backend .NET developer with ~2 years of professional experience building and maintaining production web applications in C#, ASP.NET Core and Blazor. Background in systems administration (Linux, networking, Docker, CI/CD) that helps me ship and deploy my own work. I use AI-assisted development tools (Claude Code, Copilot) daily to deliver faster, and I'm actively strengthening my fundamentals.

EXPERIENCE

Backend .NET Developer — May 2025 – Present
HumanTech Software

- Built a multi-tenant HR platform from scratch with .NET 10, Blazor and Clean Architecture, now in production.
- Added features and fixed bugs on a live workforce management platform.
- Integrated AI-based document processing (OCR, field extraction, auto-categorization) to replace paper-based workflows.
- Implemented GDPR-compliant digital signature flows (OTP, click, certificate) with audit trail.
- Generated PDF documents with QuestPDF (time-tracking records, legal templates).
- Set up Docker-based development and GitHub Actions CI/CD deployments to Linux servers.

Non-tech roles — May 2023 – Apr 2025

- Worked outside software while continuing self-study in .NET and C#.
- Completed the 42 Málaga Piscine (intensive C programming bootcamp) and attended the core curriculum for several months before leaving for work.

Frontend Developer — May 2022 – May 2023
Correcto · Startup

- Built Angular components and screens in a 3–4 person team, including payment pages and Google sign-in.
- Developed a Chrome extension version of the same product.
- Fixed bugs and improved existing features on a production web app.

EDUCATION

Full Stack Developer Program — 2021 – 2022
Upgrade Hub · Madrid, Spain
JavaScript, React, Node.js, REST APIs, SQL/NoSQL and Git, with team projects in an agile workflow.

Higher Technical Diploma in Network Systems Administration (ASIR) — 2018 – 2020
IES Fuengirola N°1 · Málaga, Spain
Linux and Windows Server, networking, databases, web servers, virtualization and IT security.

SKILLS

Backend: C#, .NET 8–10, ASP.NET Core, Blazor, Entity Framework Core, REST APIs, Clean Architecture, xUnit

Frontend: Angular, JavaScript, HTML/CSS

Databases: MySQL, PostgreSQL

DevOps: Git, GitHub Actions, Docker, Linux, Azure, Oracle Cloud (OCI)

Tools: AI-assisted development (Claude Code, Copilot), Scrum

LANGUAGES

Spanish (native) · English (B2) · German (A1, learning)
